### **DETAILED ACTION**

1. Applicant's amendment, filed 2/22/02 is acknowledged.

*Claims 35 – 62 are pending.*

### ***Election/Restrictions***

2. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 35-49, drawn to a vaccine for inducing an immune response in a patient, comprising immunogenic lipoarabinomannan (LAM).

Group II, claims 50 – 59 , drawn to a method of therapeutically and prophylactically treating patients against asthma.

Group III, claims 60-62, drawn to a device for prophylactically or therapeutically treating asthma.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The Invention of Group I was found to have no special technical feature that defined the contribution over the prior art of US Paten 6,599,691 or US Paten 6,238,676 or US Patent 5853737.

US Patent '691 teaches a vaccine comprising as an active agent immunogenic lipoarabinomannan (LAM) ( see entire document, Abstract in Particular).

US Patent '676 teaches that lipoarabinomannan (LAM) have been used as an active agent in vaccine formulation( see entire document, Abstract in Particular).

Us Patent '737 teaches a vaccine containing LAM as an active agent( see entire document, Abstract in Particular).

Art Unit: 1644

Since Applicant's Inventions do not contribute a special technical feature when viewed over the prior art they do not have a single general inventive concept and so lack unity of invention.

3. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

A telephone call was made to John Holman on 2/17/04 to request an oral election to the above restriction requirement, but did not result in an election being made.
